Academic English Program (Aspire English)
+
Bachelor of Hospitality Management (ICMS)

What were the major contributing factors to your decision to study at Aspire?

I chose to study English at Aspire because the college provides a lot of information and assistance for students. We have smaller classes, so we have a higher chance to interact with our teachers.

What did you do after completing your English course?

After completing the Academic English Program I felt confident with my level of English and started a Bachelor of Hospitality Management at ICMS. During my bachelor degree I did my compulsory Work Integrated Learning internship placement on beautiful Hamilton Island.

What would be your advice to someone considering studying at Aspire?

I would recommend Aspire. People are friendly and you can have so much fun here. I have made many new friends from all over the world. Also, you always get assistance for either your studies or your life on campus.

When did you start studying in Australia and when will you complete your studies?

I began my studies in September 2017 and completed my diploma in August 2018. I then chose to transition into the second year of a Bachelor of Business at the International College of Management, Sydney.

What made you apply for a scholarship at Aspire?

I really didn't think that I could achieve a scholarship. I didn't have the confidence and was scared to compete with others. I feared failure. But my parents encouraged me and I took a chance. I did my very best in the interview. At that time I had in my mind that even if I didn't get the scholarship I was already one step ahead of everyone who did not apply.

A few days after submitting my application and doing the phone interview I received the phone call that changed my life.

From that moment on I changed my attitude from 'as long as I don't fail I'll be OK' to 'I need to give my very best to all things in life'. The scholarship made me realise my potential and the fact that I had been underestimating myself all this time.

What did you hope to achieve while studying at Aspire?

I knew that by studying at Aspire, I could grow as a person, make connections, and see the business world from a different perspective in a way that could help me in the future.

After finishing my diploma program, I wanted to pursue a bachelor degree at either UTS or ICMS. I chose ICMS for my Bachelor of Business because I was already familiar with the campus and the community and it was a smooth transition from Aspire to ICMS.

What are your future plans in terms of the career you would like to pursue?

In terms of career, I would like to work in the Human Resources department of a large company such as ANZ or Qantas so that I can gain meaningful experiences that will help me pursue my dream, which is to build my own company.

What has winning this scholarship meant to you?

I am no longer afraid of failure, I am more open to opportunities and I am able to leave my comfort zone.

I even had the courage to give a speech at the scholarship ceremony, despite my stutter. Winning the scholarship has been unforgettable experience.

What would be your advice to someone considering applying?

Do not hesitate, go for it!

As Warren Buffett says: "Opportunities come infrequently. When it rains gold, put out the bucket, not the thimble."
